I am interested in serving on the Hospital Board to apply my extensive background in working with many hospitals in California to assist in solving our present and future problems.

In addition, I have had detailed experience on our Hospital Board for over ten years.

I have also had over eight years experience on the ACHD Board. I was Chair of the Board and served on most of their committees. There are more than 40 District Hospitals that belong to ACHD. This permitted me to observe many Hospital problems and solutions. Keeping in touch with ACHD is important, as they can help us on present and future issues.

I was also Co-Founder of the Hospital Foundation.

Since moving to Big Bear Lake in 1985, I have become very active in the community and have served the following organizations: Big Bear Lake City Council...Department of Water and Power...VFW...Elks...Chamber of Commerce...DOVES Board of Directors...Chair Task Force to relocate the Animal Park...Rotary Club.
